WILLS & ADMINISTRATIONS

FROM THE

KNARESBOROUGH

COURT ROLLS.

WITH

INDEX TO ORIGINAL WILLS, &c., AT SOMERSET HOUSE.

VOL. II.

Published for the Society

By ANDREWS & Co., DURHAM;

BERNARD QUARITCH, 15, PICCADILLY, LONDON.

1905.

At a Meeting of the SURTEES SOCIETY, held in Durham Castle on Tuesday, December 1st, 1896, the DEAN OF DURHAM in the chair,

It was resolved,

That MR. FRANCIS COLLINS, M.D., do edit the wills, inventories and administrations entered on the Knaresborough Manor Rolls.

WILLIAM BROWN,
Secretary.

PREFACE.

The Wills, Administrations, and Tuitions printed in this volume extend from the 4-5 James I to A.D. 1660--1, and complete the series enrolled in the Rolls of the Honor of Knaresborough. After the year 1640, as stated in the preface of the previous volume, the custom of enrolling Wills was not strictly adhered to, but some continued to find a place in the Rolls until and including the year 1660–1, when the practice ceased altogether, and all original documents belonging to this Court of Probate were either filed or tied in bundles, and retained until 1858, when, by Act of Parliament, the powers of this Court ceased. The original documents were, under the new arrangement, sent, first to the District Registry at Wakefield, and subsequently to the Principal Probate Registry at Somerset House. As perfect an Index of these as it was possible for the compiler to make, follows the Abstracts of Wills &c., printed in this volume. The original documents not being available, he had to compile this from two different indexes, which, unfortunately, in certain instances do not agree, but as now printed, he believes it to be fairly correct. As it is arranged alphabetically, the names will not be found in the General Index.

For reference purposes the bundles, from 1640 to 1708, and the documents they contain, are all num-

bered; the number of each *bundle* is printed in dark type, and of each document in light type. From 1708 to 1858 the bundles are all lettered; the earlier ones from A to Z—and after the alphabet was exhausted double letters were used. The documents contained in these bundles are numbered. One of the difficulties encountered was that of attaching the Inventories and Bonds to their respective Wills or Administrations, when they had been placed in different bundles, which down to 1708 was often the case. After 1708 there is frequently nothing to show whether the documents indexed are Wills or Administrations; but it may, probably, be taken for granted, when two dates are given, the one preceding the name is the date of Probate, and that following the name is the date of the Will. Where there is no date preceding the name, unless the information is actually given, it is impossible in many instances to form any idea as to the nature of the document. Throughout the Index the letters W, A, I, T, B following the names, refer respectively to Wills, Administrations, Inventories, Tuitions, and Bonds. The letters W B &c., with no comma between them, signify Will Bond, &c. As far as possible the names of the Administrators and Guardians are given, and any information in brackets shows it was obtained either from the Rolls or other sources, and that it is not to be found in the official indexes.

INDEX

TO ORIGINAL WILLS, &c.,

AT

SOMERSET HOUSE,

PROVED AT KNARESBOROUGH,

1640 TO 1858.

KNARESBOROUGH WILLS, &c.,

1640 to 1858.

These wills, &c., are arranged in bundles; the earlier bundles are numbered, and the later are lettered. The inventories and bonds, in many instances, are not in the same bundle as the will to which they belong. As far as possible, in this Index, the references to the latter are given with that of the will. All references are printed in dark type. Letters W, A, T, I, and B signify, respectively, Will, Administration, Tuition, Inventory, and Bond. The information in brackets is not to be found in the Official Calendars. The reference and date of probate precede the name; the date of the will follows the name. When the inventory and bond are not in the same bundle as the will, the reference is given after the other information. The names of the executors and administrators are added as far as possible. As this Index is arranged alphabetically, the names will not be found in the General Index.
